Name: _____ Date: _____

A LIBRARY OF TOOLS

Read the article below and answer questions 1-7 on page 2.

I Many people buy a tool for a small job and then leave it in a cupboard for years. A tool library offers a different choice. Members can borrow things such as drills and garden tools, use them at home and bring them back. This service is especially useful for people who need a tool only once or twice a year. They do not have to buy an expensive tool or find a place to keep it.

II A tool library works much like a book library. Before borrowing anything, a new member fills in a form and pays a small yearly fee. A volunteer explains how to use the tool safely. Members must return borrowed tools after a week so that other people can use them. If a tool does not work properly, members should tell a volunteer instead of trying to repair it themselves. The volunteers check every tool before lending it again.

III However, not everyone feels ready to borrow a tool. Some people have never used a drill and are worried that they might hurt themselves. To help them, the library offers short lessons on Saturday mornings. During these lessons, volunteers show people how to do simple jobs, such as putting up a shelf. The learners then practise with the tools while a volunteer watches. People can attend a lesson even if they are not library members.

IV The library also brings neighbours together. People often share advice when they come to borrow tools. Some members help older neighbours with jobs in their homes. However, the library cannot meet every need. A member who needs the same tool every day may prefer to buy one. For people who need tools only occasionally, borrowing is a useful way to save money and space. The library hopes to offer more lessons, but it first needs to find more volunteers.

Name: _____ Date: _____

QUESTIONS (70 points)

Answer all questions in English according to the article.

1. What do we learn from paragraph I?

Choose TWO correct answers.

[ ] i) Why people sometimes buy tools they rarely use.
[ ] ii) Where the first tool library opened.
[ ] iii) How borrowing a tool can help people.
[ ] iv) Who repairs the tools in the library.
[ ] v) How many tools each member can borrow.
[ ] vi) Why garden tools are more expensive than drills.

(paragraph I, lines 1-6)

(2 x 7 = 14 points)

2. Why must members return tools after a week?

(paragraph II, lines 9-10)

i) Because all tools stop working after a week.
ii) Because they must pay the yearly fee again.
iii) Because members are not allowed to use tools at home.
iv) Because other people need to borrow them.

(8 points)

3. What should members do if a borrowed tool does not work properly?

(paragraph II, lines 10-12) Complete the answer.

They should _____

(8 points)

4. Why are some people worried about using a drill?

Give ONE answer. (paragraph III, lines 14-16)

ANSWER: _____

(8 points)

5. When does the library offer lessons?

(paragraph III, lines 16-17)

ANSWER: _____

(8 points)

6. What TWO things can people save by borrowing tools?

(paragraph IV, lines 25-26) Complete the answers.

(1) They can save _____
(2) They can save _____

(2 x 8 = 16 points)

7. Why does the library need more volunteers?

(paragraph IV, lines 26-27)

i) To make every member buy a new tool.
ii) To offer more lessons.
iii) To stop members from sharing advice.
iv) To make people return tools every day.
